

# Guidelines for Acknowledging Mellowes Center Services in Publications and Grant Submissions

*Acknowledgement helps measure and document impact, secure funding, and advance towards a broader portfolio of Genomic Sciences and Precision Medicine research at MCW.*

Thank you for utilizing Mellowes Center Research Services. Integral to the mission of the Mellowes Center is to provide services that directly benefit MCW faculty through education, research development, and professional growth. Citations and acknowledgements are an essential measurement of how institutional investments produce academic productivity and will support the growth of research services at Mellowes Center and MCW long-

Fee-for-service including, but not limited to, sequencing, bioinformatic and statistical analyses, databases  
Material support, e.g., cells, antibodies, reagents  
Write up of various stages of research, including sample extraction, sequencing, and bioinformatics

## Guidelines:

---

*Example 2:* Sequencing for this project was completed at the Mellowes Center for Genomic Sciences and Precision Medicine at the Medical College of Wisconsin ([RRID:SCR\\_022926](#)).

*Example 3:* Sequencing reads were processed through the Mellowes Center for Genomic Sciences and Precision Medicine ([RRID:SCR\\_022926](#)) workflow including MapRseq3 (Kalari et al., 2014) and differential expression calculated by EdgeR (McCarthy et al., 2012)

*Example 4:* Sample extraction, library preparation and sequencing for this project was completed by the Mellowes Center for Genomic Sciences and Precision Medicine Center (MC) at the Medical College of Wisconsin ([RRID:SCR\\_022926](#)).

Extended Services relevant for inclusion in the Acknowledgement Section

*Example 1:* The authors of the project would like to thank the Mellowes Center for Genomic Science and Precision Medicine ([RRID:SCR\\_022926](#)) at the Medical College of Wisconsin (Milwaukee, WI, USA) where *[methodology / process]* was performed.

*Example 2:* Bioinformatics analysis with the Mellowes Center for Genomic Science and Precision Medicine ([RRID:SCR\\_022926](#)) at the Medical College of Wisconsin contributed to many facets of this work.

*Example 3:* Support for this project was provided by the Mellowes Center for Genomic Science and Precision Medicine ([RRID:SCR\\_022926](#)) at the Medical College of Wisconsin.

*Example 4:* *[methodology / process]* was supported by faculty and staff in the Mellowes Center for Genomic Science and Precision Medicine ([RRID:SCR\\_022926](#)) at the Medical College of Wisconsin, we thank them for their contributions towards this manuscript.

Co-authorship, preferred for collaborative and/or significant contributions.

**Notify Shared Resources Director**

When your research is supported by the Mellowes Center Shared Resource and published, please email the Mellowes Center Research Core Director, Dr. Angela Mathison ([amathison@mcw.edu](mailto:amathison@mcw.edu)), upon acceptance.
