Peds	Emergency Medicine	Transition to Anesthesia	Transition to Anesthesia	Transition to Anesthesia	Transition to Anesthesia	Transition to Anesthesia	Transition to Anesthesia	Transition to Anesthesia

Anesthesia schedule is subject to rotation variability but this provides an idea of the likely rotations.

Key:
 SICU - VA Surgical ICU
 CHIPS - Acute Inpatient Pediatrics
 PET - Preoperative Clinic
 Safari - Adult Intensive Anesthesia
 CMH - Community Memorial Hospital (community exposure)
 ARIC - Anesthesia Res in Charge (Board-runner)

Vacations:
 PGY1: 3 weeks
 PGY2: 3 weeks with 5 Academic/Sick days
 PGY3-5: 2 weeks on Pediatrics, 2 weeks on Anesthesia
 - Vacations are very flexible to schedule on anesthesia but will have to be coordinated with pediatrics.
